Student Details

SEN Needs

- The **V4 Client | Focus | People | Students | Student Details | SEN Needs – Other** panel now enables records to be saved without a rank where the SEN Need is closed, e.g. with an end date before the system date.

Date of Change	Rank	SEN Need	SEN Start Date	SEN End Date
01/01/2016	1	Beh, Emotional and Social Diff		
01/01/2016	1	Profound & Multiple Learn Diff	01/01/2015	01/05/2015
27/02/2018		Visual Impairment	01/08/2017	01/01/2018

Statutory All Locales

UK Bases

The UK Bases table has been updated with the latest information from the Department of Education's (DfE) EduBase and the Welsh Government's (WG) list of schools.

AMPARK and CTF Translations

- The latest 7.180 AMPARK and CTF Translation files are available on **My Account** following the release of One Education Spring 2018 (3.65).

<https://myaccount.capita-cs.co.uk/hot-topics/One-AMPARK-Files-and-Translation-Tables/>

- For the 2018 Assessment component, please refer to the *Assessment component files*, available on the DfE and WG websites:

DfE: <https://www.gov.uk/government/publications/assessment-component-files-2018>.

WG: SDF site (<https://dataexchangewales.org.uk/SoftwareDevForum.aspx>). NAW_A_COMP 2018 can be found at the hyperlink and under <Software Development Form> <NAW_A_COMP >.

CTF 17

- The CTF 17 import and export routines have been updated to support the new A-Comp 2018 and NAW A-Comp 2018 assessments.
- Closed SEN Needs without a rank will be imported and exported.

Statutory England Specific

Phonics

- This return includes yearly changes only. In order to ensure that the correct year is being included, the automated yearly tables update for **Key Stage 1 – Phonics** should be run via the **v4 Client | Tools | Administration | Attainment Projects Calendar Year Update** routine. Please import the latest 7.180 AMPARK and CTF Translation files.
- For detailed data validation rules, please refer to the *DfE Technical Specification*, available on the DfE website:

<https://www.gov.uk/government/publications/phonic-screening-data-collection-2018-technical-specification>.

More Information: A new handbook, *Statutory Phonics Screening Check Handbook*, is available on the **One Publications** website.

EYFSP

- This return includes yearly changes only. In order to ensure that the correct year is being included, the automated yearly tables update for **EYFSP** should be run via the **v4 Client | Tools | Administration | Attainment Projects Calendar Year Update** routine. Please import the latest 7.180 AMPARK and CTF Translation files.
- For detailed data validation rules, please refer to the *DfE Technical Specification*, available on the DfE website:

<https://www.gov.uk/government/publications/eyfsp-return-2018-technical-specification>

Key Stage 1

- Some changes have been made to the assessment component valid scores.
 - Reading, Writing, Mathematics and Science have been introduced with a new additional TA maladministration (**Q**) code.
 - Disapplied (**U**) code has been removed from Science.
- As the yearly tables are updated during the upgrade to the One Education Spring 2018 (3.65) release, you do not need to run the Key Stage 1 automated yearly table update routine.
- For detailed data validation rules, please refer to the *DfE Technical Specification*, available on the DfE website:

<https://www.gov.uk/government/publications/ks1-assessments-data-collection-2018-technical-specification>

Statutory Wales Specific

Post -16

IMPORTANT NOTE: The Welsh Government (WG) recently issued a revised specification (version 2.1) which includes some changes to learning activity and programmes. These changes are currently being analysed and are not currently included in this release. We will issue further information and timescales for supporting v2.1 of the specification. In the meantime, we would recommend waiting until we support v2.1 of the specification before importing the 2018 Post 16 Census file.

The following are the changes based on v2.0 of the Post 16 specification:

- This includes yearly changes to support the import of the 2018 PLASC Post 16 Census files. These files are now imported in the v4 Client via **Focus | Data Management | Import | Import File Specifications** as *Welsh Census FT-18*.
- One Education supports importing of these details to the PLASC tables.
 - New Pupil Programme details have been introduced.
 - Some changes have been made to the Post 16 learning activity.
 - The learning activity reference is no longer collected.
- New QWAD (Qualification Wales Approval/Designation Number) and Programme Identifiers have been introduced.
