PLASC Census Wales

last updated for the Autumn 2017 release (3.64)

Mappings 2017 -2018

CAPITA

PLASC Census Mappings 2018

PLASC Census files are imported using the One v4 generic import routine. Once imported, the XML tag values are stored into PLASC temporary tables, after which a project is created and validated with the One database values.

This document lists the PLASC table columns in which the values are stored for each tag of the PLASC Annual Census 2018 file.
